6) Read the text about Glastonbury Festival and choose the correct option (a, b, or c).

Glastonbury Festival is one of the world's most famous outdoor music and performing arts events. It originally started on a small farm in Somerset, England, back in 1970. Only 1,500 people attended the very first festival! Today, over 200,000 festivalgoers attend the five-day event every summer.

Last July, I attended the festival with my friends. On the second night, the iconic rock band Coldplay headlined the famous Pyramid Stage. Their show featured colorful laser light displays and spectacular fireworks!

My personal highlight was on the third day when pop star Billie Eilish performed. I love modern alternative pop, so her concert was my absolute favorite. She sang all her chart-topping hits, and the entire crowd sang along to every word.

The final day featured folk and acoustic artists, which was pleasant and relaxing. The only negative part was the muddy ground caused by heavy rain; walking around was quite difficult! Nevertheless, it was an extraordinary experience.
